DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 3-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: the primary reason for allowance of claims 1, 2-5, and 13-18 is the inclusion of, among other features, the terminal subtractor and error correction circuit. For claims 6-12, the prior art also fails to teach or suggest a Delta-Sigma modulator that includes the terminal subtractor of claims 1 & 13; and the N-bit quantizer for quantizing the integrated signal output by the integration unit and for outputting a second quantized digital signal. These features of the claimed invention are not found in the prior art. Therefore, the pending claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
